CABLE SERVICE

If your cable television is showing a black screen, be sure that your Set Top Box is turned on and the green light is glowing. TELEPHONE SAFETY

TIPS

- Never give your name, address, or phone number to someone you do not know.
- Use your first initial and last name as information.
- Use an answering machine when not at home. Do not state in your message that you are not home. Say that you are unable to come to the phone at the moment.
- In case of emergency, know what number to dial (911) and what to say when calling.
- Don't release any personal information if called about surveys, contests, subscription drives, purchases or deliveries until the source of the call has been verified. Ask for their phone number and mention that you will return their call later. Verify if the phone number is legitimate.
- Never give any information to "wrong number" callers. Ask for the number they are trying to dial.
- Always give the impression you are not alone.
- If the caller asks for someone who is not available, say that they can't come to the phone at the moment. Ask for a name and number to return the call.
- If it becomes clear that a caller is harassing, hang up immediately. Report any continuing incidents to the police.
- In harassment situations, do not become emotionally involved. Don't try to discourage calls by yourself. Always disconnect the call and contact your phone company or authorities if needed.
- If all else fails, change your phone number and have it unlisted.

TELEPHONE HARASSMENT

It is harassment when someone calls and uses obscene or threatening language, or even heavy breathing or silence to intimidate you. It is against the law to make obscene or threatening calls.

Just one unwelcome, obscene call can be considered harassment. Your telephone company, however, might require these calls to be frequent to take action. (If the phone call results in threatening bodily harm or life, action will be taken immediately by your phone company and the police).

Call "Traps" or Call Traces may be setup by your phone company to help determine the location of these harassing calls.

Each local phone company differs in policies dealing with harassment cases, but they will all point you to someone that can help.

Everyone is encouraged to contact their local law enforcement with harassing callers that are persistent, especially the calls that threaten harm or lives.
