

Setting up your Wi-Fi System with the App

The app allows you to easily manage your home or small business Wi-Fi network within minutes. Download the app and take control of your Wi-Fi network today!

Download the app. You can search either the Apple App Store or Google Play Store for: 'RTC Fiber' then install it on your mobile device.

Select 'Sign Up' or 'Log In' to set up your router to access Wi-Fi controls and protection.

Select "Setup or Replace Router" to set up your new router model.

Follow the next steps for new router set up.

Note: Manually enter device details if scanning does not work.

Now that your new router is set up, you can set up your Wi-Fi network.

Get to know the Wi-Fi app

Create a Guest Network

- Click on My Network from the Home screen.
- Click the "+" icon.
- Click "Add Network".
- Select "Guest" from Wireless Network Type dropdown.
- Create your network name.
- Select security type if desired.
- Create your password.
- If you have ExperienceIQ, you can set the duration of the network to endless or a custom amount of time.
- Share the network via QR code or text

Set up Basic Parental Controls

- Click the People tile on the Home screen.
- Tap the "+" icon.
- Add a name (and photo, if desired).
- Check the box for any devices associated with that person.
- Click edit on the person's profile when devices need to be added later.
- Swipe the Internet Access toggle off to pause all devices connected to the profile.
- If you have ExperienceIQ, you can set schedules to turn internet access off for all assigned devices during specific times as well as restrict apps and websites.
